**THE SCIENCE OF SUBLUXATION THEORIES,
ANALYSIS, AND CORRECTION**

September 25-27, 2009

Biltmore Resort and Spa at Scottsdale AZ

CBP ANNUAL CONFERENCE: THE SCIENCE OF SUBLUXATION

A lot has changed since Chiropractic BioPhysics® hosted our first conference thirty years ago.

Over the years we've refined our philosophies, techniques, methods, and protocols through continual research, trials, testing, and study.

Our annual conference offers an opportunity to earn 16 continuing education credits (approved for most states and Alberta, Canada) while receiving an integrated education in the scientifically proven approach that's taught in seven major chiropractic colleges.

discover strategies for improving the stability of your practice through improved patient satisfaction and growth. You'll see how research supports chiropractic philosophy and practice.

And more. Much more.

Theories and therapies. Case studies. Analysis of spinal deformities. Adjustive and rehabilitative treatment techniques. Class 4 Laser therapy. Chiropractic trends. Physiological therapies. Biomechanics of adjustive forces.

All in all, you'll benefit from everything we've learned over the past three decades.

And you get started (or make progress) on CBP certification.

See you there.

You'll expand your vision of how chiropractic care can improve health, save money, and enhance the quality of life for your patients. You'll learn chiropractic techniques to more effectively treat spine and postural abnormalities. You'll

Support better chiropractic. Support CBP NonProfit, Inc.

YES, I would like to partner with CBP Nonprofit Inc. in helping to further the research and advancement of chiropractic care around the world.

About the historic Arizona Biltmore Hotel

Throughout its colorful history, this acclaimed landmark has been graced by U.S. presidents, celebrities and world travelers. Arizona's historic Grand Dame radiates an undeniable mystique of refinement and splendor. The only existing hotel in the world with a Frank Lloyd Wright-influenced design, The Arizona Biltmore has been an Arizona landmark since its opening on Feb. 23, 1929 when it was crowned "The Jewel of the Desert." Irving Berlin penned many tunes, including "White Christmas" while sitting poolside. Learn more at: www.arizonabiltmore.com

WHO YOU'LL HEAR:

Dr. Joe Betz

Dr. Betz has co-authored several published research papers and is a principal investigator on the PCCRP Subluxation x-ray guidelines (www.PCCRP.org) and the ICA's Best Practices guidelines (www.icabest-practices.org). He has served as the primary consultant for clinical documentation development for Best Notes for the past 5 years.

Dr. Chris Colloca

As CEO and Founder of Neuromechanical Innovations, Dr. Colloca designed and manufactures the Impulse family of chiropractic adjusting instruments. Over the past fifteen years, he has lectured to thousands of chiropractors and physicians around the world, and his award winning research has resulted in over fifty scientific journal publications.

Dr. Dwight DeGeorge

Dr. DeGeorge graduated with a Master of Science from Boston University. In 1986 he graduated Palmer College of Chiropractic. He currently operates a CBP practice seeing 500 p.v.w. Dr. DeGeorge is the developer of the timeless doctor seminar series. He has invented several original traction units used for structural rehabilitation of the spine.

Dr. Christopher Kent, Esq., Key Note Speaker

Christopher Kent, DC, Esq. is co-founder of the Chiropractic Leadership Alliance. Named ICA "Chiropractor of the Year" in 1998, he was also honored with the first Lifetime Achievement Award conferred by Life University in 2007. Dr. Kent is an active member of the California Bar Association.

Dr. Phil Harrington

A former Physics teacher, Dr. Harrington draws on his education background and ten years of chiropractic clinical experience to present the most current information on laser therapy. He has comprehensive knowledge of the basic science of lasers through the latest research, and presents it in an easily understandable manner.

Dr. Deed Harrison

Thousands of chiropractors have learned from and been inspired by Dr. Deed Harrison, lead instructor of Chiropractic BioPhysics seminars. Thousands more have learned from his four textbooks, ninety peer-reviewed publications, and his own reviews for the chiropractic literature. In addition to his role as CBP lead instructor, he's vice president of CBP Non-Profit, our research arm, and directs a practice and clinical research facility.

Dr. Donald D. Harrison

Dr. Donald D. Harrison originated CBP Technique in 1980 and developed its Mirror Image® treatment methods. He holds the equivalent of three Bachelor's Degrees (Mathematics, Mechanical Engineering, and Education), two Master's Degrees (Mathematics and Mechanical Engineering), and two Doctorate Degrees (Mathematics and Chiropractic). As President of the CBP Nonprofit, Inc. research institute, he is author of approximately seventy publications in the Index Medicus.
